for additional installation assistance please call
Customer Service (800) 793-7846

PROCEDURE

1. Remove contents from box, verify if all parts listed are present and free from damage.
Carefully read and understand all instructions before attempting installation.
(This skid plate can be installed by one person but it is highly recommended to have assistance of a second person.)
Failure to identify damage before installation could lead to a rejection of any claim.

2. Locate M8 bolts on frame of vehicle and remove. These bolts are located towards the back of the vehicle behind the stock muffler. These bolts will be used to mount the rear brackets. See **Fig. A** and **Fig. B** for reference.

3. Insert supplied M12 bolt plate and hardware as shown on **Fig. B** and **Fig. D** to mount the front bracket. Tighten at the end to 50-55 ft-lbs.
