Other ways to reach BACKRACK:

Fax **905-849-4116**

email: [techsupport@backrack.ca](mailto:techsupport@backrack.ca)

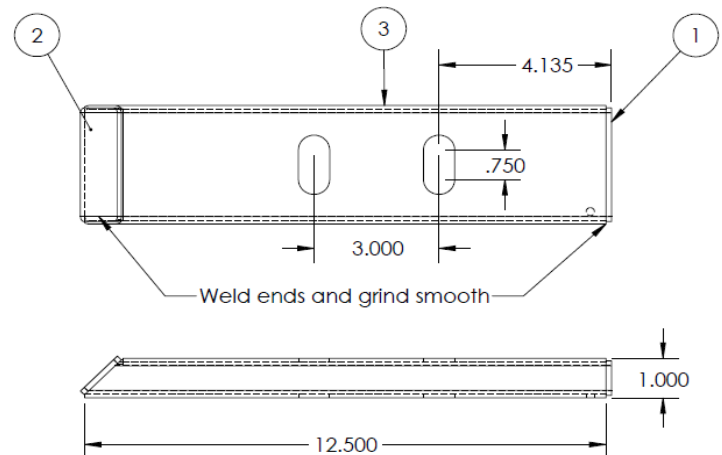

The tonneau cover riser kits will raise the Backrack 1" to give room for the low profile inside the rail type tonneau cover adaptor. The BACKRACK assembly sits on the bed rails of your truck and is secured with these bolts. If your truck has a BEDLINER we suggest you remove it to drill and install the bolts

Place the riser between the rail mount bracket and the rail plate.

Risers are labeled with Backrack on one side

NOTE: Rail Plates are recommended but not necessary.
